

## Home Entertainment

One of our unique products on offer is our Home Theatre PC (HTPC).

A HTPC allows you to watch and record HD digital television at the same time, listen to music, watch DVD's and view your photos all via remote control. As a HTPC is designed to be part of your home theatre, it also comes in an attractive case that will look fantastic with any new or existing home theatre system. As a special offer, we have also included 3 months free subscription to the IceTV electronic program guide service (internet connection required).

**Our basic HTPC with 250GB green power hard drive is \$x,xxx.**

To use the HTPC as a normal PC for internet, email, work and gaming, simply add a wireless keyboard and mouse.

We also sell Samsung LCD and Plasma full HD televisions and recommend the Samsung 6 series LCD. Our pricing on the Samsung LCD's is very competitive and is even better when incorporated with one of our HTPC's.

### **Samsung 650 Series Pricing**

**32"** - RRP \$x,xxx - **Our Price \$x,xxx**

**40"** - RRP \$x,xxx - **Our Price \$x,xxx**

**46"** - RRP \$x,xxx - **Our Price \$x,xxx**

**52"** - RRP \$x,xxx - **Our Price \$x,xxx**

Combine One of the Samsung 650 series LCD's with one of our HTPC's and we will take 5% off of the price of your full HD television.

Television prices can change weekly please check with us and we will do our best to beat any advertised price on Samsung LCD's and Plasma televisions. We recently saved one of our clients over \$400 on the best price available from Harvey Norman.
